To all importers and declaring agents

Dear Sir/Mdm,

Transfer of control for 8 Product Codes

We would like to inform you that with effect from 1 April 2023, the control on the import of the following groups of organisms will be transferred from the Plant Science & Health Branch (CA13 – PHU) to the Wildlife Trade Branch (CA10 – CIT), within the National Parks Board (NParks). This means that the processing of TradeNet declarations using these codes will be processed by CA10 instead of CA13. No further actions are required on your end.
