All Traders & Declaring Agents

AUTO PROCESSING OF CUSTOMS DECLARATIONS

Previously, the 3 under-mentioned types of TradeNet Payment Declarations were processed on-line. To facilitate the processing of such payment declarations, we have carried out enhancements to our in-house system to process them electronically with effect from 1 Feb 2001.

- Short payment for duty/GST (DP SP)
- Payment of duty/GST under Temporary Import Scheme (DP TI)
- Payment of GST for auction cargo (DP GP)

2 Short payment of Customs duty and GST (DP SP) for both dutiable and non-dutiable goods will be processed and approved electronically by the TradeNet system. With this automation, traders and declaring agents need only to submit their TradeNet applications for short payment without having to submit any supporting documents to Customs.

3 In addition, traders and declaring agents can transmit a Duty/GST payment declaration for the payment of Customs duty and GST under Temporary Import Scheme (DP TI) for auto-processing. However, a "CT" permit condition will be imposed. Under the condition, the declarant is required to submit supporting documents such as permit, invoices, freight and insurance papers to Customs within 14 days of the approval of the permit.

4 The submission of a TradeNet declaration for the payment of GST on auction cargo (DP GP) will also be processed electronically. Traders and declaring agents need only to submit their TradeNet applications for payment without having to submit any supporting documents to Customs. The Place of Release should be declared as 'AUC' when making such declaration.

5 If you need further information, please contact HSC Lim Yew Lin or SC Leong Mei Sheong of Documentation Branch at Tel. No. 3552107.
