TRADENET[®] VERSION 4.0 OUTREACH SESSIONS

Singapore Customs will be rolling out the new TradeNet[®] Version 4.0 on **30 October 2007** with the concurrent implementation of the Singapore Trade Classification, Customs & Excise Duties (STCCED) 2007.

2 To facilitate a smooth cut-over and to enable all users to familiarise themselves with the new software, a parallel run of the new Version 4.0 will be held concurrently with the existing Version 3.1 from **30 October 2007 to 30 November 2007**. During this period, we encourage all users to submit their declarations using the new software. To prepare for the implementation, intermittent disruptions in TradeNet[®] may be expected. More details on this will be made available in our upcoming circulars.

3 Singapore will be implementing the STCCED 2007 in the new Version 4.0. The STCCED 2007 is based on the ASEAN Harmonised Tariff Nomenclature 2007 (AHTN 2007) and will replace the current STCCED 2003.

4 In order to familiarise users with the new messages and declaration types under TradeNet[®] Version 4.0 and the new STCCED 2007, Singapore Customs will be organising a series of Outreach Sessions in October 2007. We strongly encourage all users to attend the Outreach Sessions:
