Circular No: 23/95 dated 7 Nov 95

To All Traders and Carriers

SINGAPORE TRADE CLASSIFICATION AND CUSTOMS DUTIES 1996

1. With effect from 1 Jan 96, the 1994 edition of the Singapore Trade Classification and Customs Duties (STCCD) will be replaced by the new 1996 edition.
2. The updated edition incorporates the comprehensive amendments proposed by the World Customs Organisation (WCO). It is important to note that about 393 sets of amendments have been incorporated, covering various commodities in agriculture, chemicals, textiles, base metals, machinery and other sectors. In addition, Customs has included other changes such as the simplification and reduction of texts and tariff lines for commodities on which customs duties have been lifted and an updated set of customs procedures and documentary requirements. So the new publication reflect substantial changes which traders should familiarise themselves with.
3. Copies of the new 1996 publication are now available for purchase at $20.60 per copy at the following Customs offices:
