<u>Country</u>	Country Code Amended

With these amendments, you need to amend the locodes for these countries as shown in **Annex A**.

In addition, please note that a new country code, "MK" has been created for Macedonia. Details of this newly created country code and its locodes are shown in **Annex B**.

You can start using the amended country codes to declare the country of origin or country of final destination and the locodes to declare the ports of loading or ports of discharge in **Annexes A** and **B** when you are applying for the Import and Export Permits through TradeNet effective from **1 January 1998**.

Please update your LOCODE Reference File with the new and amended port codes. This will assist you when you prepare the applications for the Import and Export Permits for submission through TradeNet. If you need further clarifications, please contact the Customs Call Centre at Tel No. 63552000.
