

CLASSIFICATION RESOURCES

You may visit our website at www.customs.gov.sg to look for online resources that can assist you in determining the classification of your goods. The following tools and resources can be found on the website:

i) Alphabetical Index to STCCED 2012

The Alphabetical Index (AI) to the STCCED 2012 is a directory of commodities and their corresponding HS codes, arranged in an alphabetical order. If the Chemical Abstracts Service Registry Number (CASRN) of a chemical is known, the AI with the CASRN can be used to search for the HS code of the chemical.

ii) Frequently Asked Questions (FAQ) on Classification of Goods

This section contains some frequently asked questions on the HS classification of goods.

iii) HS/CA Product Code Search

A search engine is available for you to do a quick search on the HS Codes and Descriptions within the STCCED 2012. You can also find out if there are any Competent Authorities (CA) that may be controlling the import, export or transshipment of your goods, and the contact information of the CA.
