Cargo Agents and Carriers

Dear Sir/Madam

NEW TRADENET REQUIREMENTS FOR THE TRANSBOUNDARY MOVEMENT OF ELECTRONIC WASTE UNDER THE BASEL CONVENTION

At the 15th Conference of the Parties to the Basel Convention held in Jun 2022, Parties adopted the decision to subject all Waste Electrical and Electronics Equipment (WEEE) and its components to transboundary movement control from 1 Jan 2025 onwards. As a Party to the Basel Convention, Singapore has amended the Schedule to the Hazardous Waste (Control of Export, Import and Transit) Act to include two new WEEE entries i.e. Y49 in Annex II for non-hazardous WEEE and A1181 in Annex VIII for hazardous WEEE. For more information on the adopted amendments, please refer to National Environment Agency (NEA) circular¹ (Ref: PCD1/Basel/24-02) issued on 1 Apr 2024.

New Domestic Controls for the Import/Export/Transit of Waste Electrical and Electronics Equipment (WEEE) and Used Electrical and Electronics Equipment (UEEE)

2 Companies intending to export, import or facilitate the transit of WEEE from 1 Jan 2025 onwards will be required to obtain a Basel Permit from the Chemical Control and Management Department (CCMD) of NEA prior to shipment. For more information on the application of a Basel Permit, please refer to the NEA website². Applicants are advised to factor in additional lead time for the application process of the Basel Permit, which includes time taken for States involved (e.g. Import, export and transit states (if any)) to conduct the Prior Informed Consent (PIC) procedure.

3 While the transboundary movement of UEEE is not subject to the PIC procedure under the Basel Convention, (i.e. no Basel Permit is required for the export, import or transit of UEEE) at this juncture, domestic controls for UEEE will also be implemented through the TradeNet system to ensure that proper checks are in place to distinguish UEEE from WEEE and ascertain that UEEE is imported for legitimate purposes. All new domestic controls on the import, export and transit of WEEE and UEEE will be put into force on **1 Jan 2025**, in tandem with the implementation of the e-waste amendment under the Basel Convention.

Requirements for Submission of Declarations in TradeNet

4 Currently, traders are required to declare the import and export of hazardous wastes and other wastes using the appropriate Harmonised System (HS) Codes and Product Codes via TradeNet for NEA's approval prior to their transboundary movement. From 1 Jan 2025 onwards, there will be an expanded list of controlled HS Codes with Product Codes pertaining to UEEE and WEEE that will be subjected to CCMD's processing and approval.

¹ For more details, please refer to the circular on Transboundary Movement Control on Electronic Waste found on NEA's website at: <https://www.nea.gov.sg/docs/default-source/our-services/pollution-control/hazardous-waste/nea-notice-on-transboundary-movement-control-on-electronic-waste-under-the-basel-convention.pdf>

² Details on the Basel Permit application process can be found at: <https://www.nea.gov.sg/corporate-functions/resources/legislation-international-law/multilateral-environmental-agreements/chemical-safety/basel-convention/application-for-basel-permit>.

Traders will be required to meet the following requirements when declaring the import and export of WEEE and UEEE in TradeNet prior to their transboundary movement:

- a) Declaration of WEEE and UEEE using the most appropriate HS Codes and CCMD Product Codes (refer to ANNEX A, Products regulated under the Resource Sustainability Act⁴ (RSA): Resource Sustainability (Prescribed Regulated Products) Regulations 2019 are marked in *);
- b) Submission of valid Basel Permit within the declaration for WEEE listed in Annex II or Annex VIII;
- c) Submission of relevant supporting document(s) within the declaration for WEEE and UEEE, including and not limited to:
 - i. Bill of lading;
 - ii. Invoice;
 - iii. Surveyor's report in the case of UEEE to be imported/exported for direct reuse;
 - iv. Contractual agreements between the exporter and importer on the purpose of the export/import e.g. repair and refurbishment, fault analysis, recycling etc.
 - v. Approvals from importing country; and/or
 - vi. Letter of confirmation, written approval or permit from importing/exporting country for the transboundary movement of UEEE.
- d) WEEE listed in Annex II are to be declared separately from those listed in Annex VIII.
- e) For more information on the requirements for the export or import of WEEE or UEEE, please refer to the Technical Guidelines for the Export or Import of WEEE or UEEE on NEA website³.

Selection of Appropriate HS and Product Codes in Declarations

5 The appropriate Product Codes to be declared for UEEE and WEEE are as follows:

- a) UEEE meant for direct reuse: PCTWCB031;
- b) UEEE meant for repair/refurbishment: PCTWCB032; and
- c) WEEE meant for disposal/recycling: PCTWCB030.

Traders are required to use the HS and Product codes in ANNEX A for declarations related to UEEE and/or WEEE. Any used or waste electronic items regulated under the Resource Sustainability (Prescribed Regulated Products) Regulations 2019 shall be declared using the relevant HS and Product Codes marked in asterisk (*) in ANNEX A. In the event you are unable to determine the appropriate HS or Product Codes for UEEE or WEEE, you may refer to the information on HS/CA Product Code and control status of item based on the HS/CA Product Code available on TradeNet or visit <https://go.gov.sg/hasca>. If the item is subject to control, please ensure the import/export/transit requirements by the relevant controlling agencies are met, which includes the requirements from CCMD(MTV).

Penalties

6 TradeNet declarations that are found non-compliant with the above requirements may result in delays in processing or be rejected for import/export. Any false or misleading declarations may constitute an offence under the Section 37(2) of the Hazardous Waste (Control of Export, Import and Transit) Act and the offender shall be liable on conviction to a fine not exceeding \$10,000 or to imprisonment for a term not exceeding 12 months or to both. In addition, the import or export of hazardous or other wastes under the Basel Convention without a valid Basel Permit may also constitute as an offence under Sections 25(1) and 26(1) of the Hazardous Waste (Control of Export, Import and Transit) Act and the offender shall be liable on conviction to a fine not exceeding \$300,000 for a body corporate; or \$100,000 and/or imprisonment for a term not exceeding 2 years for an individual.

Clarifications

7 If you have any further queries on the new domestic controls for import and export of WEEE and UEEE, you may wish to contact NEA via email at NEA_Basel@nea.gov.sg.

Yours faithfully
