

To All Shipping and Declaring Agents

**DECLARATION OF PINK TRANSHIPMENT PERMITS FOR
CONTAINERISED NON-DUTIABLE AND NON-CONTROLLED GOODS**

1. We are pleased to inform you that with effect from 15 Dec 95, we have simplified the information required for a Customs Pink Transshipment permit for the inter-gateway movement of containerised non-dutiable and non-controlled goods under "through" bills of lading or airway bills. When declaring your permit, you may now use the following HS code and item description:

HS code	: 999999000
Item Description	: Non-dutiable and non-controlled goods as per BL/AWB/manifests attached

2. You need only key in the number of BLs or AWBs instead of the actual BL or AWB number.
 3. However, you can only use the above stated HS code, item description and simplified method of keying in BL/AWB under the following circumstances:
 - a. The goods are containerised, non-dutiable and non-controlled under a "through" bill of lading or airway bill.
 - b. The permit type is a pure Customs Pink Transshipment permit with declaration purpose: Z.
 - c. Only one container number is declared on each permit.
 - d. The container, permit and BL/AWB/manifests are produced to the second customs checkpoint within 12 hours of leaving the first customs checkpoint.
-
