21 June 2017

Seafood Traders

Dear Sir / Madam

NEW LIST OF HS & PRODUCT CODES FOR SEAFOOD PRODUCTS

We would like to inform you that the new list of HS codes seafood products for your permit declaration is available to download from AVA's website (https://www.ava.gov.sg/docs/default-source/default-document-library/fishpdtcode_20-june-2017). The summary of the changes, including those new codes, amended product description and deleted codes, could be found in Annex 1 below.

Some species of sharks and rays have been listed on the Appendix II of the Convention on the International Trade in Endangered Species of Wild Fauna and Flora (CITES), including:

- Basking shark
- Whale shark
- Great white shark
- Oceanic white-tip shark
- Great hammerhead shark
- Smooth hammerhead shark
- Scalloped hammerhead shark
- Porbeagle
- Reef Manta Ray
- Giant Manta Ray
- Mobula rays (9 species)
- Silky shark (1 species)
- Thresher sharks (3 species)

Please use the correct HS and AVA product codes in your permit declarations if you are importing the products (including live fish and their parts and products in frozen, chilled, canned or processed forms of the fish) of those CITES listed seafood species. Please note that import of the CITES listed species would require a CITES export/re-export permit from the exporting/re-exporting country and a CITES import permit from AVA.

Please contact Ms Lily Suryani or Ms Zawiyah at 6805 2857 / 6805 2863 should you have any enquiries on the import of seafood products.

Yours faithfully

Li Lu
Senior Executive Manager (Food)
Quarantine & Inspection Group
for Director-General
Agri-Food and Veterinary Services

This is a computer-generated letter and no signature is required.

ANNEX 1.

NEW PRODUCT CODES

HS CODE	PRODUCT CODE	PRODUCT DESCRIPTION	UNIT OF QUANTITY
