Meat Traders

Dear Sir / Madam

**OUTBREAK OF AVIAN INFLUENZA (AI) IN KANDIYOHI COUNTY,  
MINNESOTA, USA**

USA reported another outbreak of H5N2 Low Pathogenicity Avian Influenza (LPAI) in a commercial poultry premises in Kandiyohi County in Minnesota.

In view of the outbreak, AVA will impose a temporary restriction on the importation of poultry and poultry products to the 10 km restricted area around the affected premises in Kandiyohi County in Minnesota, with effect from 20 Oct 2018. Heat-processed poultry products, which meet the requirements for destruction of AI virus, will not be affected by the import restriction. For import from unaffected areas in USA, additional certification is required on the veterinary health certificate as listed on Annex 1.

Please contact Ms Lily or Ms Zawiyah at 6805 2857 / 6805 2863 should you have any enquiries on the import of poultry and poultry products.

Yours faithfully

Li Lu  
Senior Executive Manager (Food)  
Quarantine & Inspection Group  
for Director-General  
Agri-Food and Veterinary Services

## Annex 1

The additional certification should state on the Veterinary Health Certificate:

- a. Highly pathogenic avian influenza (HPAI) and H5 and H7 low pathogenicity avian influenza (LPAI) are notifiable diseases in the country of export.
- b. The birds from which the meat was sourced were not vaccinated against H5 and H7 subtypes of avian influenza (AI), as defined by the World Organisation for Animal Health (OIE).
- c. The poultry meat and meat products were not derived from birds originating from the 10 km radius restricted area around the affected premises in Kandiyohi County in Minnesota and Stanislaus County in California.
- d. The poultry from which the meat was derived were born, raised, and slaughtered in USA, or were legally imported as day old chicks from countries with equivalent poultry health status.
